

MEMORANDUM OF UNDERSTANDING

On scientific and educational cooperation
between
Faculty of Civil and Environmental Engineering
of Warsaw University of Life Sciences - SGGW
and
Faculty of Agricultural Technologies and Ecology
of Lviv National Agrarian University

With the objective of promoting academic exchange and cooperation between the two institutions, they hereby agree to the following:

1. Based upon the principles of respecting other's independence and mutual benefit, the two institutions agree to explore the possibilities of:
 - research in the fields:
 - sustainable development and environmental protection of rural areas,
 - sustainable usage of soil and water resources with a special reference to diffuse pollution, protection of organic soils,
 - soil pollution with particular emphasis on biomagnifications and deposition of heavy metals in industrial zone.
 - joint research projects
 - joint educational programs
 - exchange of academic staff and students
2. In order to initiate any of the above mentioned activities, detailed working plans should be elaborated in the future that would result from mutual consultation and negotiations and would be signed by both institutions.
3. This Memorandum shall impose no financial obligations of either institution. It is understood that financial arrangements will be negotiated in each specific case and will depend of the availability of funds. Each party agrees to seek financial resources for above mentioned activities. It is also understood that the details of joint activities will be negotiated for each specific case.
4. The Memorandum is effective on the date of the signature hereto and will remain in effect for the initial period of 5 years. It can be extended for a period as mutually agreed by both parties. The Memorandum can be terminated by either institution by giving two months notice to the other party.
